

DEEP DIVE INTO SELF-LOVE – A JOURNEY TO SELF DISCOVERY

Maybe you've tried to take good care of yourself to boost your energy, lose weight, shift a habit, release a recurring emotion/situation... Yet **in a world that often feels overwhelming** – with work, social media, global challenges and tensions in our relationships – it's easy to **end up feeling stuck, exhausted, and disconnected**.

What if, in these moments you just could:

- take a deep breath, pause and **return to your heart**;
- experience **Love as a natural quality** of the heart - free, open, and unconditional;
- discover, that **True self-love** is not about becoming someone else or seeking approval, but about meeting ourselves with honesty and compassion;
- set healthy boundaries, and **accept who we truly are**.

Join us for a gentle, transformative workshop, where we focus on:

- 1. Deepening our understanding of how life works** in interaction with everything else;
- 2. Exploring your inner stories** with heart-led, creative methods: Looking at beliefs, values, and patterns that may be holding you back, creating space for new, more supportive ways;
- 3. Working on a personal transformation project:** You'll receive a pre-assignment to help you choose a project to focus on during the course;

Our Online-Program (all sessions will be recorded):

Workshop on Self-Love: March 21st, 2026, from 4 to 8 PM CET

Deepening & Exchange: Tuesdays (4 x 1.5-hour sessions),
